

## Introduction to Enpuda Industrial System

Shenzhen Enpuda Industrial System Co., Ltd. is a technology-based enterprise integrating scientific research, product development and production, program implementation, and technical consultation in materials and structural mechanics testing. The company has been adhering to the business philosophy of "technological innovation and sincere service to users", and has won customers with excellent quality and service.

The company has a capable R&D team and a group of experienced technical and production backbones in the testing equipment industry, and has developed more than a dozen series of more than 200 models of products. Mainly include computer-controlled electro-hydraulic servo fatigue testing machine, electronic fatigue testing machine, electro-hydraulic servo torsion life test bench, auto parts inspection test bench, horizontal tensile testing machine, large structure testing machine, electro-hydraulic servo universal testing machine, Electronic universal testing machine, non-standard electro-hydraulic servo pressure test bench and related fixture accessories, etc. The test force ranges from 10N to 80MN, and the frequency covers various mechanical testing equipments of 0 to 300Hz; it can complete stretching, compression, bending, shearing, peeling, tearing, puncture, bursting, relaxation, creep, torsion, cupping The testing and analysis of mechanical properties of materials, parts and structural parts such as sudden, shock, vibration, and cycle fatigue life are widely used in universities, scientific research, quality inspection and corporate users. It is the performance analysis and quality of metal, non-metal, composite materials and structural parts and parts in the fields of national defense and military industry, aerospace, rail transit, shipbuilding industry, civil engineering, building materials, biomedicine, metallurgical manufacturing, cables and wires, and household appliances. A reliable choice for control.

Shenzhen Enpuda Testing Technology Co., Ltd. provides users with the static

and dynamic mechanical performance testing of materials and products, and wholeheartedly serves our customers with "science, fairness, precision and efficiency".

The company pursues the principle of sincerely serving users and practically solving problems, and truly solves the practical difficulties encountered in testing and analysis for users, so that every user can choose and use it with peace of mind! We will strive to improve the overall quality of our employees, unremittingly commit to "you" requirements, professional technical support and services, and good professional ethics, and continue to meet the increasing needs of "you"!

Company purpose: develop the market with technology, win users with integrity  
Quality Commitment: Products implement three guarantees in accordance with the national three guarantees law; establish after-sales user files; implement regular technical follow-up visits

Technical support: The company provides personalized professional technical services for users with various needs, and uses technology to ensure product quality. Provide comprehensive and multi-level high-quality services such as laboratory construction and improvement, personnel training, equipment selection, technical consultation, debugging and installation, maintenance and repair and verification on behalf of various industries.

Choose Enpuda, we will become your permanent partner. May Enpuda Instruments accompany you, and be your eternal friend with the most sincere service, the most comprehensive technology, and the most reasonable price!

**Headquarters factory address:** South of 1st Floor, Building F, Sanlian Industrial Zone, Tangtou Community, Shiyan Street, Baoan District, Shenzhen

**Shenzhen Marketing Center:** 27C, North Block, Guangye Building, 110 Fuhua Road, Futian District, Shenzhen

### **North China Office**

Manager Chen Tel: 18201187136

Address: Room 326, 3rd Floor, Haoyue Office Building, 128 Lugu Road, Shijingshan District, Beijing

### **Central China Office**

Manager Wang Tel: 13732973156

Address: Second Floor, Provincial Institute of Grain and Oil Science and Technology, No. 125 Jiangda South Road, Qingshan Lake District, Nanchang City, Jiangxi Province

### **East China Office**

Manager Deng Tel: 13675137349

Address: Overseas Chinese Town, No. 1 Daqiao North Road, Pukou District, Nanjing City, Jiangsu Province

### **Southwest Office**

Manager Xia Tel: 18166448429

Address: 2404, Building 85, Phase III, Hengda City, Banan District, Chongqing

### **Northwest Office**

Manager Gao Tel: 15091285583

Address: No. 20821, Block B, Fortune Center Phase II, Gaoxin 3rd Road, Lianhu District, Xi'an, Shaanxi Province

**Taiwan agent**

Manager Liu Tel: 886-921899082

Address: No. 139-26, Section 6, Civic Avenue, Songshan District, Taipei City,  
Taiwan

**Headquarters factory traffic conditions:**

Bus station: Taiwan Industrial Zone, Shancheng Industrial Zone

Number of trains: 316, 325, 326, 332, 392, 630, 759, M206, M217, M234, M243,  
M262, M345, M378, M379, M395, M516 road, peak line 104 road

Subway: Line 1 (Window of the World Station) + 329, Line 5 and Line 7 (Xili  
Station) + 332, 325B, 866, M395
